Each reference will be carefully cross-checked, including using advanced tools, to uphold the highest level of integrity and authenticity in the evaluation process. Additionally, they will ensure compliance with ethical guidelines by scrutinizing the appropriate use of AI tools.

All students, whether shortlisted for Broadcom Cohort or not, may choose to upload their project for evaluation for applying to Cohort2 – sponsored by multiple organizations. We encourage you to follow our social media channels and website for more information post 10 Jan 2025.
